RHK MAGAZINE | DECEMBER 2020 | ISSUE 214

Editor Note

I'm really excited about 2020!
When I first started RHK Productions in 2009, I had no idea we would accomplish so much. We've had 5 magazine titles under our umbrella of publications and have released over 300 issues. We have featured over 1,000 of the world's top models, thanks to our dedicated staff and world-class photographers. We are becoming more involved with musical artists and other entertainers and we have no plans on slowing down. I would like to personally thank everyone who has supported RHK … it hasn't always been easy, but the journey has been a wonderful experience. I hope this year is one of our best yet!

As always, my goal is to make RHK Productions the BEST. If there is anything we can improve, please let us know by contacting us at submit@rhkempire.com.

Have a wonderful 2020!

Best regards,
Alexander Deal, CEO

I am a small-town girl from New Hampshire, aged 27. I love all animals but especially dogs. I enjoy modeling all sorts of fashion, but my interest is intimate wear, like lingerie.

However, I am always open to trying new things. I am very proud of being an independent and self-sufficient person.

My sexiest feature?

My boobs are my most popular feature with fans. But I am very proud of my stomach too!

I do my own makeup & hair for shoots, but I am interested in experimenting with other professionals!

Born and raised in Southern Ontario, I'm very passionate about health and fitness. Living the lifestyle as a Certified Personal Trainer, Saf Pro Bikini Model, and Perfectsports athlete, I'm currently working towards personal fitness goals while also being a full-time parent and teacher to my son. I am extremely passionate about my modeling career, but my hobbies also include spending time outdoors, hiking, biking, relaxing up north in the cottage country, or catching rays while sun tanning by the pool.

My eyes are my
sexiest feature ...

After five hours of shooting...

Observe how the model's soul exits her body through her silent scream in search of a better world. A curious natural phenomenon.

My sexiest feature is probably my boobs. I get compliments on my butt, but I think my boobs are the best to show off.

Our Paths May Change
As Life Goes On
But Our Sisters Bond

I am a girl who grew up in small-town, southern Maine. I love music and singing ... these are two of the great passions in my life. I have been singing since I was in elementary school. My new passion is modeling which I just started this Summer, but have fallen in love with. My hope is to develop both passions to the fullest in the coming years.

Amateur Models

I want to do something pretty, but edgy, but sexy, but not skanky.

I don't know you, so I brought Becky and Stacy to make sure you're not a rapist.

Your studio doesn't look very nice.

Ew, I look fat.

Is this going on the *internet?*

Can I get my 500 proofs tomorrow?

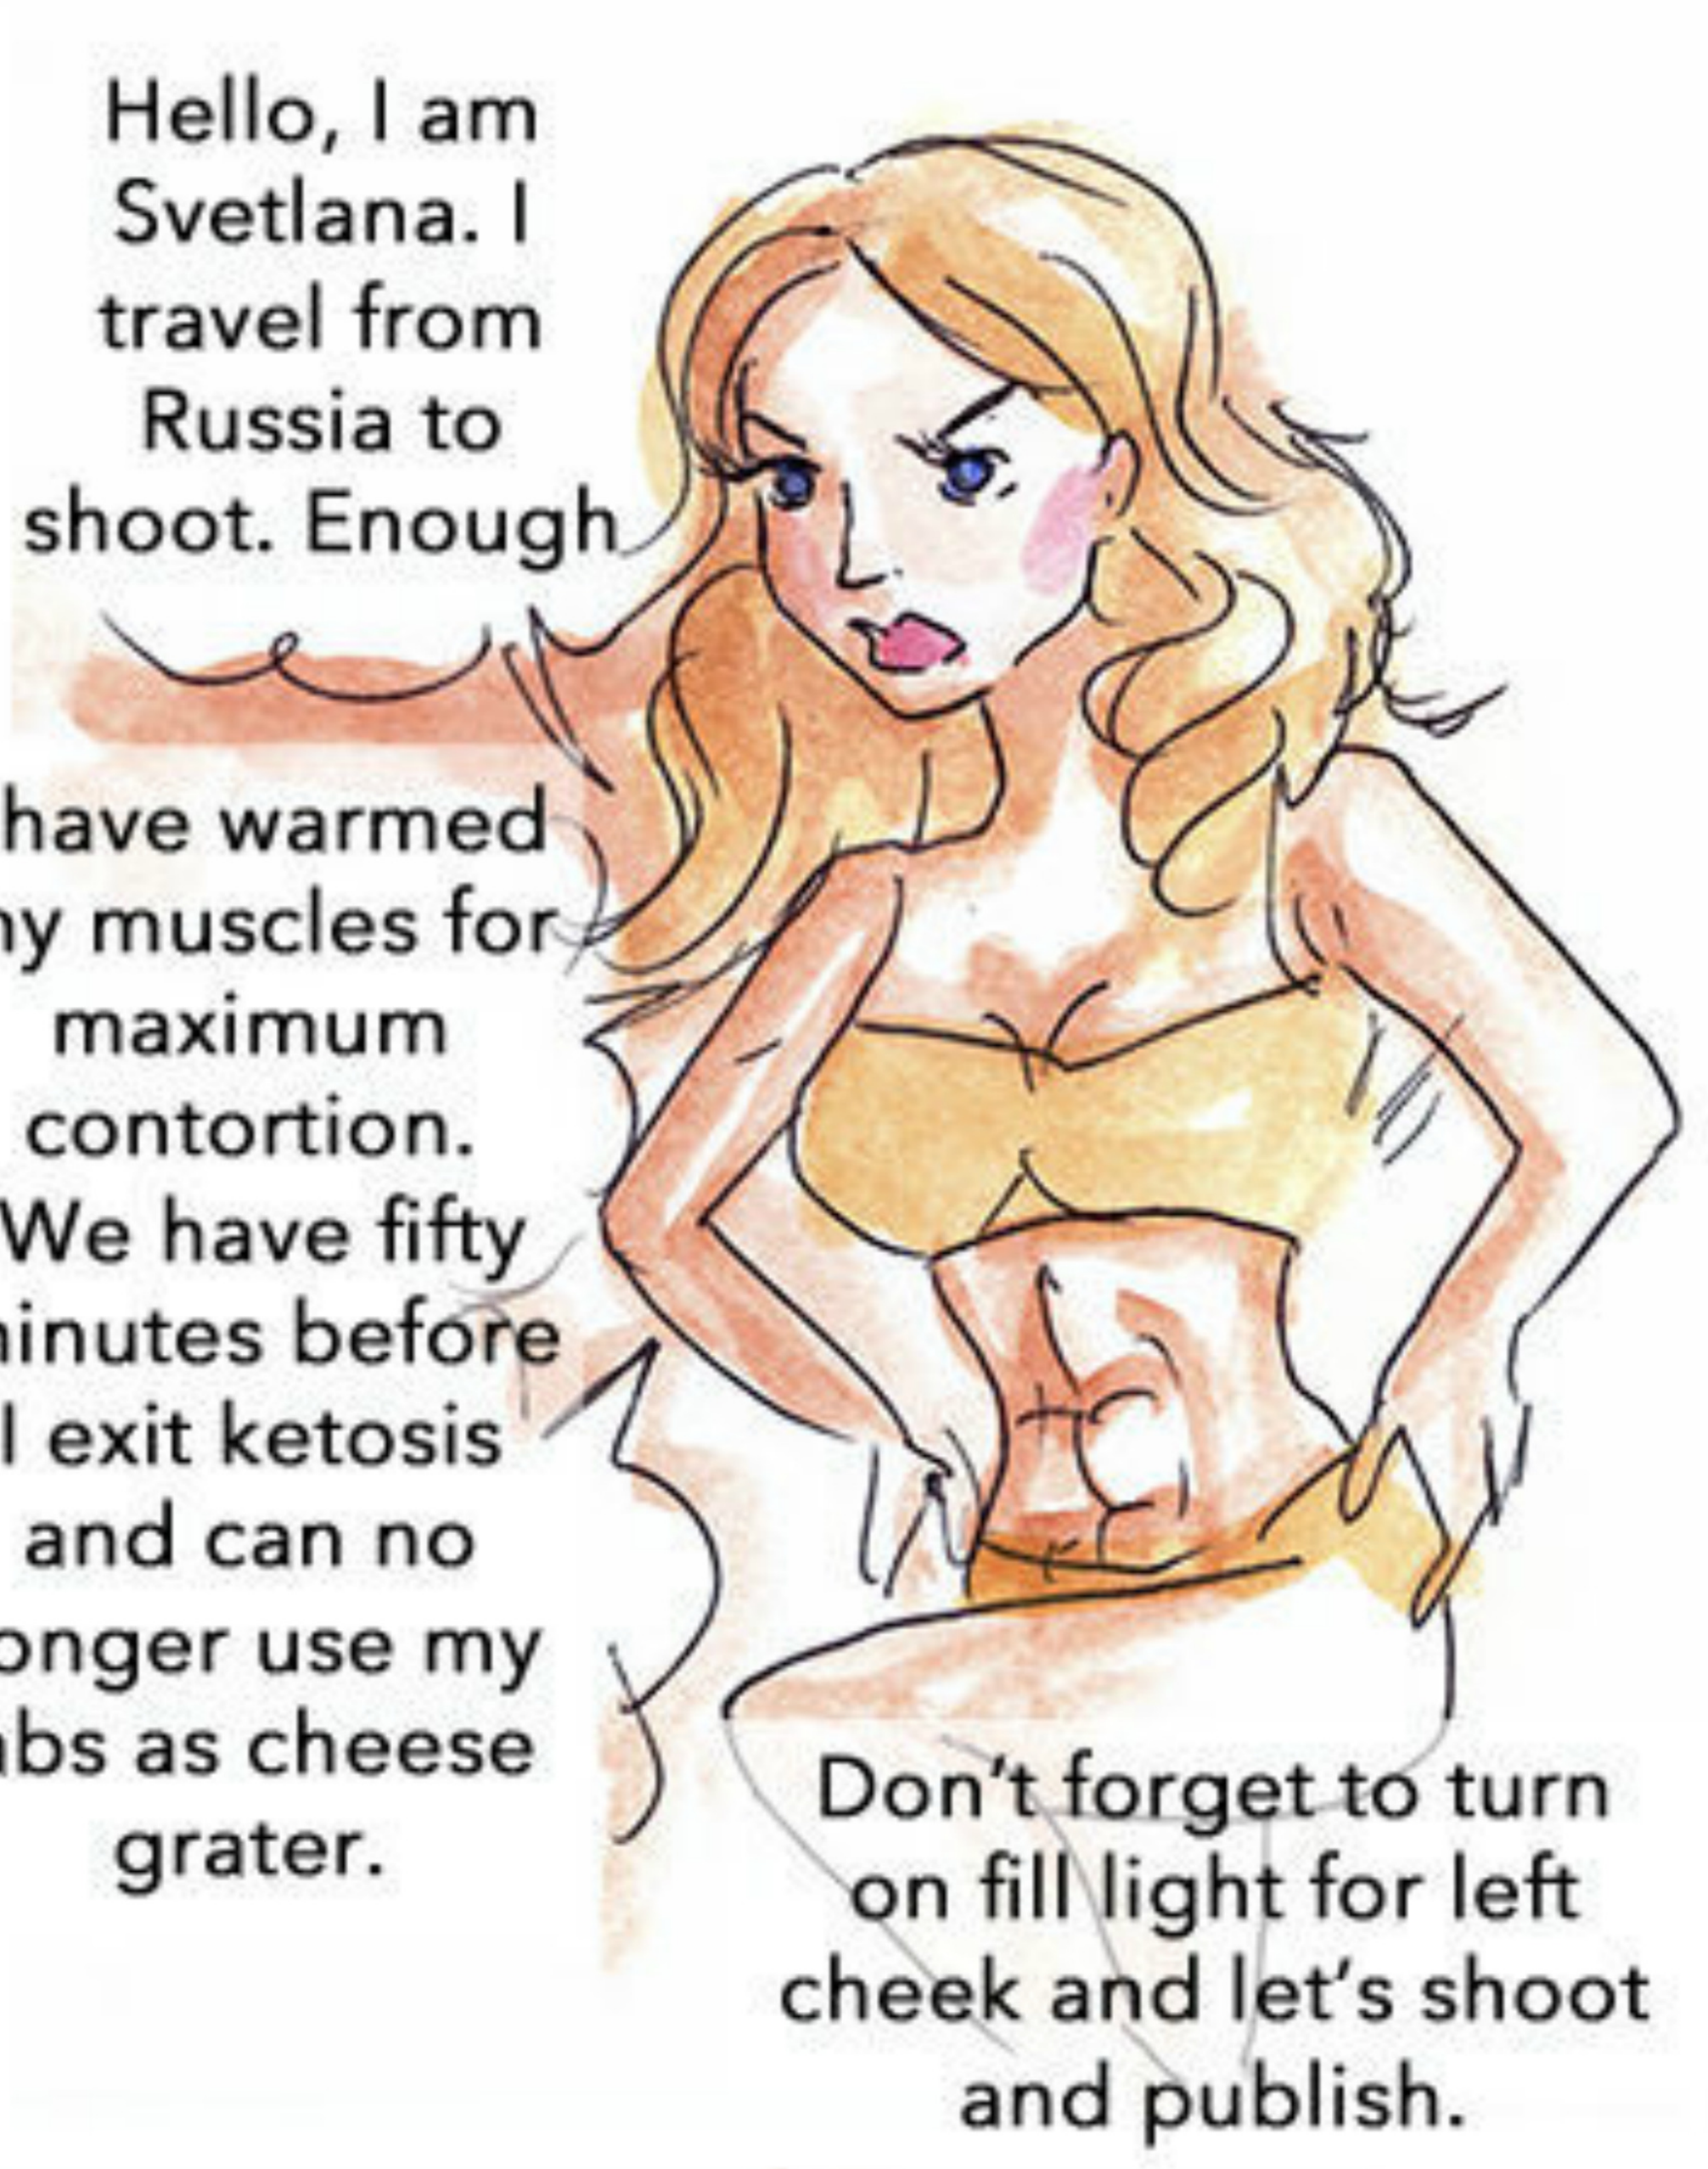
Traveling Models



Hello, I am Svetlana. I travel from Russia to shoot. Enough
I have warmed my muscles for maximum contortion. We have fifty minutes before I exit ketosis and can no longer use my abs as cheese grater.
Don't forget to turn on fill light for left cheek and let's shoot and publish.

My sexiest feature is my big, beautiful brain... oh, and being a natural redhead!

At an average resting heart rate of 55 beats per minute, my heart has pumped vital nutrients and oxygen throughout my body over 780 million times. My name is Tani. I have been a model since 2012, which means that I have spent almost one-third of my life and over 200 million heart beats perfecting my craft of becoming living, breathing art.

Along my path, I invested thousands of hours into researching the human body. Our bodies are at constant work for us, they keep us respirating, our blood pumping, they capture information and read it in the brain, they release endorphins, repair cellular damage, and clone its own cells...all for the sake of continuation of life. And I find it absolutely magical.

With this reverence for the human body in my heart I have begun seeking a career as a physician. Though I am no longer as active as a model, I will always be proud of where I came from, I will always be grateful for the woman that these experiences sculpted me, like porcelain clay, to become. The human body is a scientific marvel and an artistic masterpiece. We are art. All of us.
